

Front loading washer extractors

# Front washers

The new high, medium and low spin front washers offer an advanced design and technology, combined with a huge variety of accessories and options.

They are focused on satisfying the laundry needs of many sectors, always taking into consideration efficiency and productivity as main goals.

Savings due to high extraction of water (55-65% residual humidity)

Savings due to high extraction of water (60-70% residual humidity)

### **ECO**ENERGY

#### TOUCH II

- ✓ User friendly and totally programmable microprocessor with 7" touch screen and 29 preset programs.
- ✓ USB Connection. PC software free of charge for programming, traceability, data analysis...
- Videos on display: ads, instructions (useful for coin laundry)
- 8 dosing signals as standard + optional 6 extra dosing signals

#### G FACTOR

- High G-FACTOR for all range of washers comparing with competitors G-FACTOR 450 for High spin washers G-FACTOR 300 for Medium spin washers G-FACTOR 200 for Low spin washers
- High G-Factor reduces residual moisture and drying time

#### VERSATILITY

Make to order: customisation

New possibility to customise the machines from factory with the available options

**⊘** OPL < > Coin / Token

Standard models easily transformable with coin/token kits

- Standard clastric models easily trans
  - Standard electric models easily transformable to hot water models
- **⊘** Drain valve < > Pump

Standard models easily transformable Easy access and service

*⊙* Wet cleaning

All washers have all features to use wet cleaning programs

#### CONNECTIVITY

**⊘** Remote technical service

Machine monitoring, machine error warning, management for traceability and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.

- Management for laundries: OPL and COIN Our DOMUS IoT solution allows you to manage your laundry business (i.e. create discount programs for customers, get statistics, traceability and laundry monitoring).
- ✓ Remote payment: App for payments, cashless payment by scanning a QR code, promotions and machine booking

#### **EFFICIENCY**

**⊘** Intelligent Weighing System

Possibility of configuring three levels of savings

- **Optimal loading**
- ✓ Prepared to be connected to water recovery tanks ECOTANK
- Low water consumption
  Standard washing programme consumes less than 7 liters of water per kg and cycle
- High G-FACTOR 450 for High spin machines
  Reduced residual moisture > reduced drying time
- Water RE-CYCLE (recirculation of bath water)

#### ERGONOMICS

- Siggest door diameters in the market
  Helpful, mainly for big capacity washers, for loading
  and unloading operations
- **⊗** Easy opening/closing system for door lock
- Plinths for 11, 14, 18, 27 and 36 kg models To align loading height (door base at 850 mm)

#### MAINTENANCE

- Hinged panel Easy and ergonomic access to control panel parts
- **Sequivalent parts**

Most key parts are the same for all models parts are same for all models (contactors, electronic devices, gear...)

- *⊙* Easy access to parts for reparability
- Technical menu: traceability, error diagnosis, machine monitoring, software update...

### TOUCH II

User friendly and totally programmable microprocessor with

# 7" touch screen and 29 preset programs

Configuration of washing and spinning speed Complete regulation of water levels Regulable washing temperature from 20°C to 90 °C Standard WET CLEANING system

#### Videos on display

Ads, instructions (useful for coin laundries)

The new TOUCH II is a substantial evolution from the previous microprocessor which includes many more features mainly based on achieving more efficiency, versatility and connectivity among others.

# 8 dosing signals as standard + optional 6 extra dosing signals

#### 37 languages

Available and easy to configurate, thanks to DOMUS aim to be accessible to everyone.

#### **USB Connection**

PC software (Wash Control) free of charge for programming, traceability, data analysis...

DOMUS washer extractors, whether high, medium or normal spin, are the ones with the highest G-Factor in the market, which ensures minimum residual moisture, and this translates into less energy costs during the drying cycle.

High G-Factor reduces residual moisture and drying time

DOMUS washer extractors offer a wide variety of efficient features to make sure that the washing cycles use only the needed water and chemicals, not more.

## Intelligent Weighing System

Possibility of configuring three levels of savings

## Low water consumption

Standard washing program consumes less than 7 liters of water per kg and cycle

## Optimal loading

#### High G FACTOR 450 for high spin machines

Reduced residual moisture > reduced drying time

#### Water re-cycle

Optional kit to increase the care of the linen: recirculation of the bath water, which increases the water flow with chemicals, shortens the cycle and improves the effectiveness without mechanical action

### **ECOTANK**

## Ready to be connected to water recovery tanks

Domus washer extractors, with Touch II microprocessor and double drain, can be connected to the new Domus Ecotank which allows the water recovery, achieving important water and energy savings.

To adapt to the needs of the different businesses and sectors with the smallest investment.

#### Make to order:

#### customisation

New possibility to customise the machines from factory with the available options

#### Electric <>> Hot water

Standard electric models easily transformable to hot water models

#### **Drain valve > Pump**

Standard models easily transformable Easy access and service

## Wet Cleaning®

Thanks to DOMUS constant development, our models are equipped with the features to use WET CLEANING programs:

- Fully programmable T2 Control
- ✓ Total control of temperature and water levels
- Programmable washing speed: very low (13 R.P.M.)
- Shythm on/off 3seg/40seg
- ✓ Total control of dosing signal

DOMUS washer extractors between 10 and 36 kg are specially designed to be used in coin laundry businesses. This is available both for soft mounted machines DHS and hard mounted machines DMS and DLS.

#### OPL <> COIN

A new feature of Domus washers is its easy transformation from an OPL to a COIN machine.

Three available options:

#### Coin / Token

There are several kits depending on the currency of each country, which can be used with a token or with a new mechanical coiner kit. Both to be ordered with a coin box kit.

2

#### **Central Pay**

The machines can be connected to the central pay with the central pay kit to control a single box with money.

3

#### Remote payment

Machines ready for remote communication: allows programming, management and technical feedback. Multi payable systems: price updating, etc.

#### **Open system**

Domus equipment is prepared to work with any external payment system (by means of multi-point data).

## **○** CONNECTIVITY

One thing that is a must nowadays is to stay CONNECTED.
DomusConnect is the new IoT solution: a cloud based platform which allows many possibilities.

### Remote technical service

Machine monitoring, machine error warning, management for traceability and stadistics.
Remote desk and data recovery for technicians and maintenance, software update, etc.

Bidirectional communication with the machine to offer a quicker and closer service, to update software or to solve technical issues.

THE INTERNET OF THINGS

## DOMUSCONNECT

## Management of laundries: OPL and COIN

Our DOMUS IoT solution allows you to manage your laundry business (i.e. create discount programs for customers, get statistics, traceability and laundry monitoring).

#### Remote payment

App for payments, cashless payment by scanning a QR code, promotions and machine booking.

### ERGONOMICS As health and safety

As health and safety at work had become an important issue, our equipment is designed to be the most comfortable for the user.

## Biggest door diameters in the market

Helpful, mainly for big capacity washers, for loading and unloading the garments Easy opening/ closing system for door lock

## Plinths for 11, 14, 18, 27 and 36 kg models

To align loading height (door base at 850 mm)

## Reversible door

### MAINTENANCE

One of DOMUS concerns is to make life easier for our clients. That includes offering quality equipment and parts of reputed brands, which demand little maintenance.

## Easy access for reparability

Washers are designed to offer an easy maintenance and reparability

#### **Equivalent parts**

Most key parts are the same for all models (contactors, eletronic devices, gear,...)

#### **Hinged panel**

Easy and ergonomic acces to the panel

#### **Technical menu**

Machine monitoring, machine error warning, management for traceability and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.
